

## HVAC Inspection and Estimate Creation

At Ackerman Air, we take pride in providing accurate and detailed estimates based on a thorough inspection of your property. To cover the time and expertise involved, we charge a **non-refundable \$200 fee** for each inspection and estimate creation.

### This fee includes:

- **Site Visit:** Our expert technician will travel to your location to assess your HVAC needs.
- **Comprehensive Inspection:** A detailed evaluation of your system and property to ensure an accurate estimate.
- **Custom Estimate:** Development of a personalized estimate based on your specific requirements.
- **Digital Report:** You'll receive a full digital report that includes:
  - The customized estimate we created for your project.
  - Onsite pictures of your HVAC unit.
  - Detailed information on the required repairs and/or installations.

**Please Note:** If you choose to move forward with the work outlined in the estimate, the \$200 fee will be **deducted from the total cost of the project.**

### Terms:

1. **Non-Refundable Fee:** The \$200 fee is non-refundable and will be applied towards the total cost of the HVAC project should you choose to proceed with our services.
2. **Payment Requirement:** Payment for the estimate and assessment is required prior to scheduling the appointment. Your appointment will be confirmed once the payment is received.
3. **Deduction from Total Cost:** If you decide to move forward with the work, the amount paid for the estimate will be deducted from the final invoice for the project.
4. **Service Agreement:** Payment of this fee indicates your agreement to our terms and conditions. A 50% deposit is required before the start date of work for any job or service estimate totaling \$1,500 or more. The remaining balance will be due upon completion of the work and/or installation. For credit card payments, there is an additional 3% surcharge; for ACH payments, a 1% surcharge will apply. Financing options are available for qualified customers to help manage the cost of larger projects. Please let us know if you're interested in exploring financing to make payments more flexible.

We appreciate your understanding and look forward to assisting you with your HVAC needs.
